Contractor Report Overview

Project Description

The Inch Cape Offshore Wind Farm will be located approximately 15 to 22 km (eight to 12 nautical miles) off the Angus coastline, to the east of the Firth of Tay. The Development Area is approximately 150 km^2 and will contain 72 (Wind Turbine Generators) WTGs, one Offshore Substation Platform (OSP), 66 kilovolts (kV) inter-array cabling and the initial section of the Export Cables between the Development Area boundary and OSP.

The Offshore Export Cable Corridor will contain the Offshore Export Cables. The Offshore Export Cable Corridor will consist of two 220 kV export cables approximately 85 km long, between the landfall point at Cockenzie in East Lothian and the boundary of the Development Area, and 1.4 km across at the widest point, reducing to approximately 250 m at the landfall.

Purpose and Objectives of the Contractor Report

This Inch Cape Offshore Limited (ICOL) Contractor Report has been prepared to address the specific Contractor reporting requirements of the relevant conditions attached to the following offshore consent documents:

- Generating Station (GS) Marine Licence (MS-00010140 dated 15th June 2023), condition 3.1.3.
- Offshore Transmission Infrastructure (OfTI) Marine Licence (MS-00010593 dated 9th November 2023), condition 3.1.3.
- Additional Works Marine Licence (MS-00011083 dated 31st March 2025), condition 3.2.1.

This document will be updated by ICOL on a rolling basis, as works on the Wind Farm continues. Each Contractor is required, under conditions of contract, to provide their details and their subcontractors to ICOL in a timely fashion, in order that ICOL can provide this information to the Marine Directorate- Licensing Operations Team (MD-LOT), prior to their work scope starting.

As discussed above both these tables will be updated throughout the project with additional Contractor and subcontractor information.

Table 1 Contractors and Subcontractors Information for OFTI Marine Licence and Additional Landfall Works Marine Licence (i.e., transmission)

Activity	Contractor Details				Subcontractor Details			
	Contractor Name	Address	Contact Name	Role(s) on Project	Subcontractor Name	Address	Contact Name	Role(s) on Project
