Notice to Mariners

Date of issue:	*20-10-26*	**Notice number:**	*11/2026*
		Revision number:	*Eight*

Inch Cape Export Cable 2 Joint Burial Operations and Nearshore Cable Mattress Installation.

All mariners and stakeholders are advised that export cable 2 joint burial and nearshore cable mattress installation activities will commence.

1. Contact details

For more information on the offshore works:

Marine Coordination	Duty Marine Coordinator
E-mail:	Icol.mcc@inchcapewind.co.uk
Telephone number (24/7):	07709 507917

For all fisheries liaison and related enquiries

Fisheries Liaison Officer	Alex Winrow-Giffin
Telephone number:	+44 (0)7760 160039
E-mail:	Alex@brownmay.com

2. Activity Description

On behalf of Inch Cape Offshore Ltd, Enshore Ltd shall commence nearshore cable mattress installation and export cable 2 joint burial activities.

The utility vessel Voe Vanguard will arrive at the nearshore area to commence mattress installation on or around the 22nd of October to commence operations as shown below in fig 1. On completion the vessel will proceed to the export cable joint locations to commence burial operations as shown below in fig 2. The Inch Cape Export Cable corridor is shown in fig 3. Vessel detail shown in section 4.

During mattress installation an autonomous vessel shall be utilised to survey the nearshore area.
The Uni-Mini UAV is a small 1.7m vessel used for survey in areas of shallow water. The UAV will be launched and controlled from Prestonpans beach, the vessel detail is shown below in section 4.

3. Export Cable joint and mattress locations and export cable corridor.

4. Vessel Details

Vessel: Voe Vanguard	Contact Details	
	Call sign:	**MBEN9**
	MMSI:	**232008636**
	Vessel Information	
	Length:	**33.2 m**
	Beam:	**14.5 m**
	Draft:	**2.6m**
	Vessel Contact:	**ICOL Marine Ops Lead – 07932 229828**

Vessel: Uni-Mini UAV	Contact Details	
	Call sign:	**N/A**
	MMSI:	**N/A**
	Vessel Information	
	Length:	**1.7m**
	Beam:	**0.7m**
	Draft:	**N/A**
	Vessel Contact:	**Inch Cape Marine Operations Lead – 07932 229828**

5. Safety zones

Following consideration by Scottish government ministers, it has been agreed that during construction and commissioning of the Inch Cape development rolling 500m safety zones will be established around the offshore sub-station platform, each wind turbine generator and/or their foundations whilst construction works are in progress. Up to Ten 500m safety zones may be active concurrently as indicated by the attendance of a construction vessel.

Furthermore, pre-commissioning 50m safety zones will be established around each structure (both WTGs and OSP) and/or their foundations which is either partially constructed or commissioned, up until the point of commissioning of the wind farm. Up to 73 of these safety zones may be active at any time, given that the development will comprise of one OSP and 72 WTG's.

6. Distribution list

A distribution list for Notice to Mariners recipients is maintained centrally by Inch Cape. If you are not the appropriate recipient of these notices, or do not wish to receive them in future, please email icol.mcc@inchcapewind.co.uk to be removed from the list (or to request names to be added).
