Inch Cape
OFFSHORE LIMITED

Inch Cape Offshore Wind Farm

Weekly notice of operations

44/2026

Document reference number:	IC02-INT-CN-MOP-005-INC-NOT-011
Date of issue:	02/11/2026
Work planned for the period:	02/11/2026 to 08/11/2026

Construction activities commenced at Inch Cape Offshore Wind Farm on the 16th of June 2025. This notice will be updated weekly giving information on all the activities taking place in the windfarm and export cable corridor. Should anyone have any questions regarding construction operations we kindly ask that you put them forward well in advance.

Inch Cape Offshore Wind Farm is located approximately 15 to 22 kilometres (km) (eight to 12 nautical miles (nm)) off the Angus coastline, to the east of the Firth of Tay. The development area is approximately 150 square kilometres (km2) and will contain 72 wind turbines, one offshore substation platform (OSP), 66 kilovolts (kV) inter-array cabling and the initial section of the export cables between the development area boundary and OSP.

The Development Area is located approximately 15nm east of the mouth of the River Tay.

The Offshore Export Cable Corridor will consist of two 220 kV export cables approximately 85 km long, between the landfall point at Cockenzie in East Lothian and the boundary of the Development Area, and 1.4 km across at the widest point, reducing to approximately 250 m at the landfall. The extent of the Inch Cape development site and export cable route is shown below in fig 1.

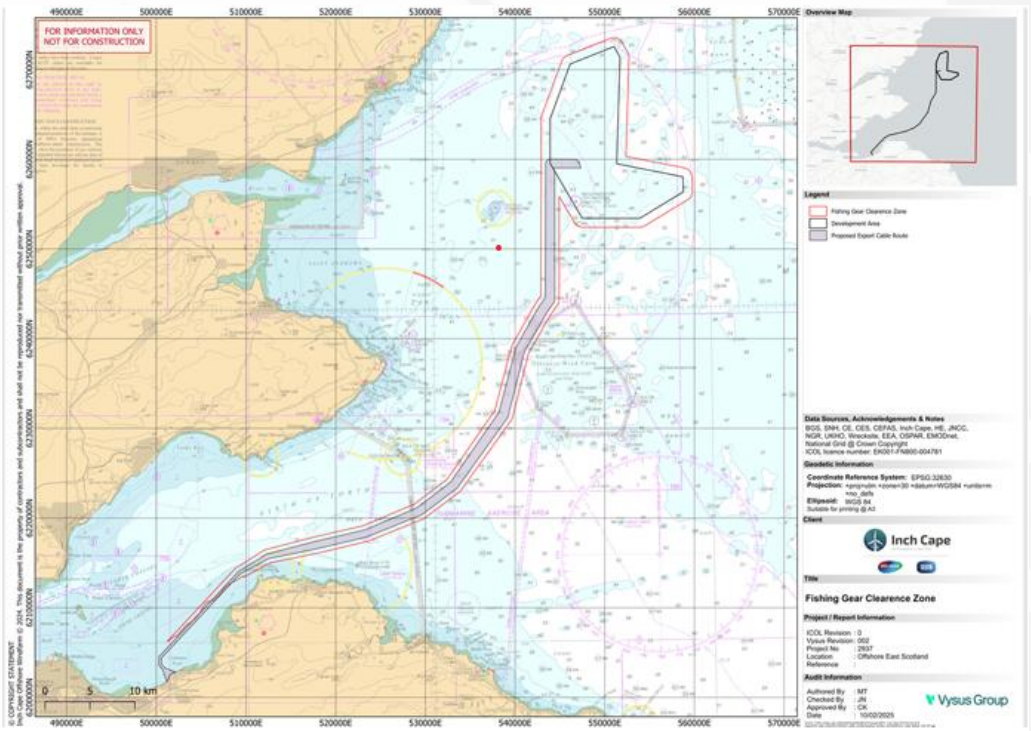

Fig 1 - Inch Cape Offshore Wind Farm location and export cable corridor

1. Contact details for Marine Coordination

The following contact can provide more information if required.

Telephone number (24/7):	**+44 (0) 7709 507917**
Email for Marine Coordinator:	**Icol.mcc@inchcapewind.co.uk**
Address:	Inch Cape Marine Control Centre and Construction Base 1st Floor, Inchbraoch House Montrose Port Authority South Quay, Ferryden Montrose DD10 9S

2. Foundation Jacket Pin Pile Installation

On behalf of Inch Cape Wind Ltd. Seaway 7 Alfa Lift will continue jacket pin pile installation activities which will be ongoing for several weeks.

Vessel: Seaway Alfa Lift	**Contact Details**	
	Call sign:	**5BFL6**
	MMSI:	**209178000**
	Vessel Information	
	Length:	**217.0m**
	Beam:	**56.0m**
	Draft:	**8.0m**
	Vessel Contact:	**Inch Cape Marine Operations Lead – 07932 229828**

3. Construction Support Activities

On behalf of Inch Cape Wind Ltd. Seaway 7 shall continue construction support activities.

The multi-purpose offshore vessel, Siem Barracuda shall continue pin pile soil plug removal activities.

Vessel: Siem Barracuda	**Contact Details**	
	Call sign:	**5BZQ3**
	MMSI:	**212253000**
	Vessel Information	
	Length:	**120.8m**
	Beam:	**25.9m**
	Draft:	**6.1m**
	Vessel Contact:	**ICOL Marine Ops Lead – 07932 229828**

4. Offshore Sub-Station Commissioning Works.

Commissioning works on the offshore sub station platform will continue. Regular checks of the platform will be carried out by Inch Cape technicians who will access the platform by crew transfer vessel.

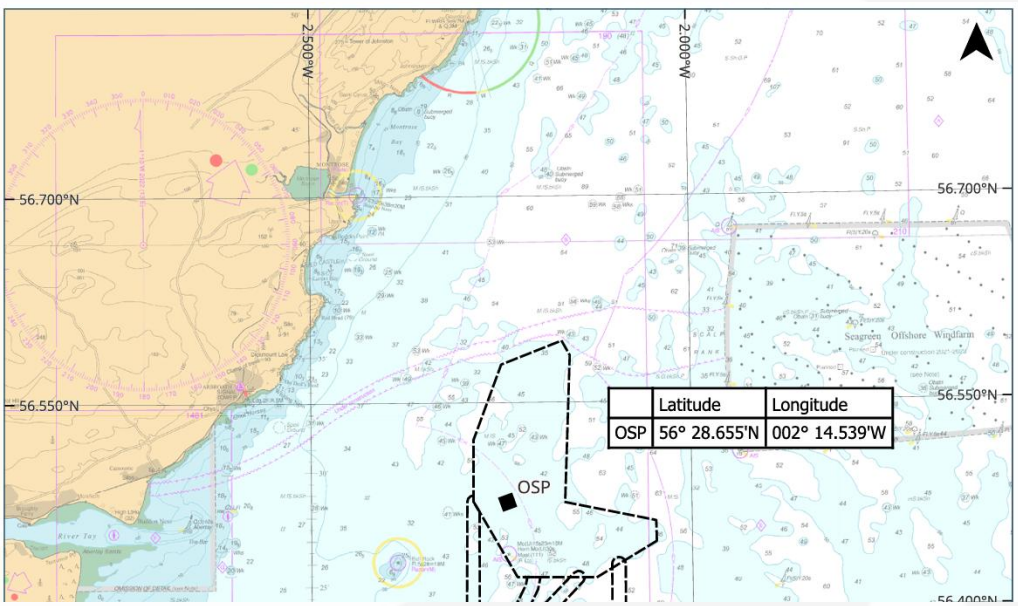

Fig 2 - Inch Cape OSP location.

5. Inter Array Cable Installation

On behalf of Inch Cape, N-Sea will continue inter array cable lay, pull in and burial operations.

Cable laying activities will be conducted by CLV Altera. Burial operations will be conducted by the multi-purpose vessel North Sea Enabler.

Technicians will access the offshore sub station platform and foundation structures via a walk to work system and crew transfer vessels.

Walk to Work activities will be conducted from Olympic Taurus and DOS Notus, the crew transfer vessels MCS Pampero, NR Revolt and NR Alpha shall support operations, vessel detail below

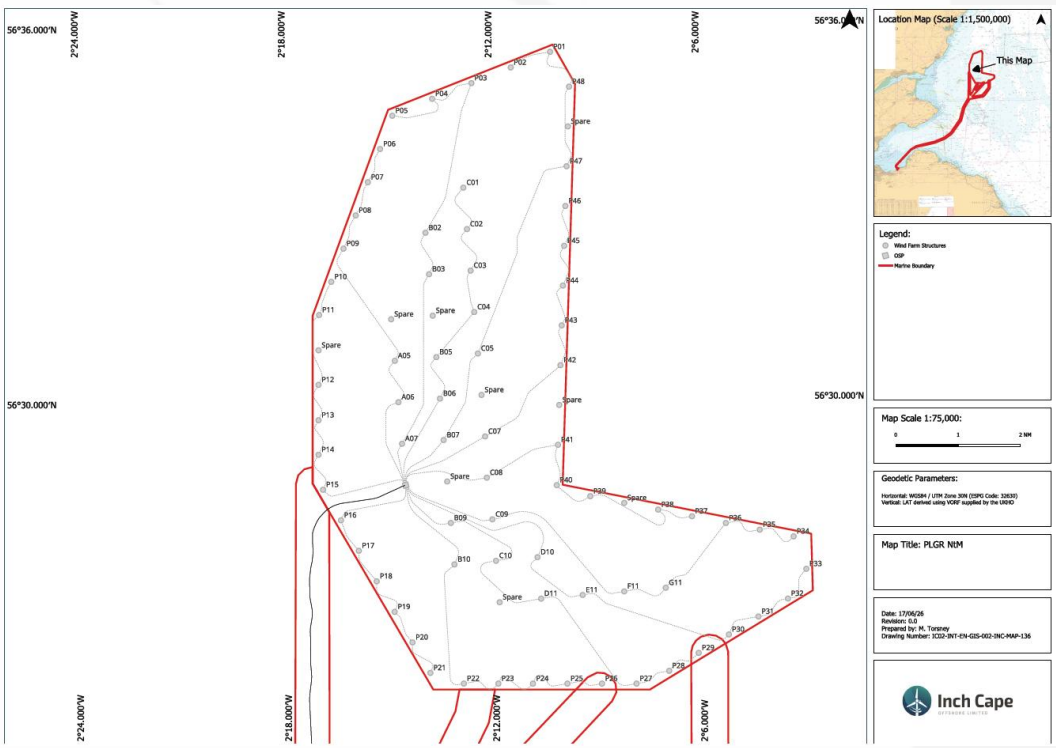

Fig 3 – Inter Array Cable Routes.

Vessel: Altera	Contact Details

	Draft:	**1.5m**
	Vessel Contact:	**ICOL Marine Ops Lead – 07932 229828**

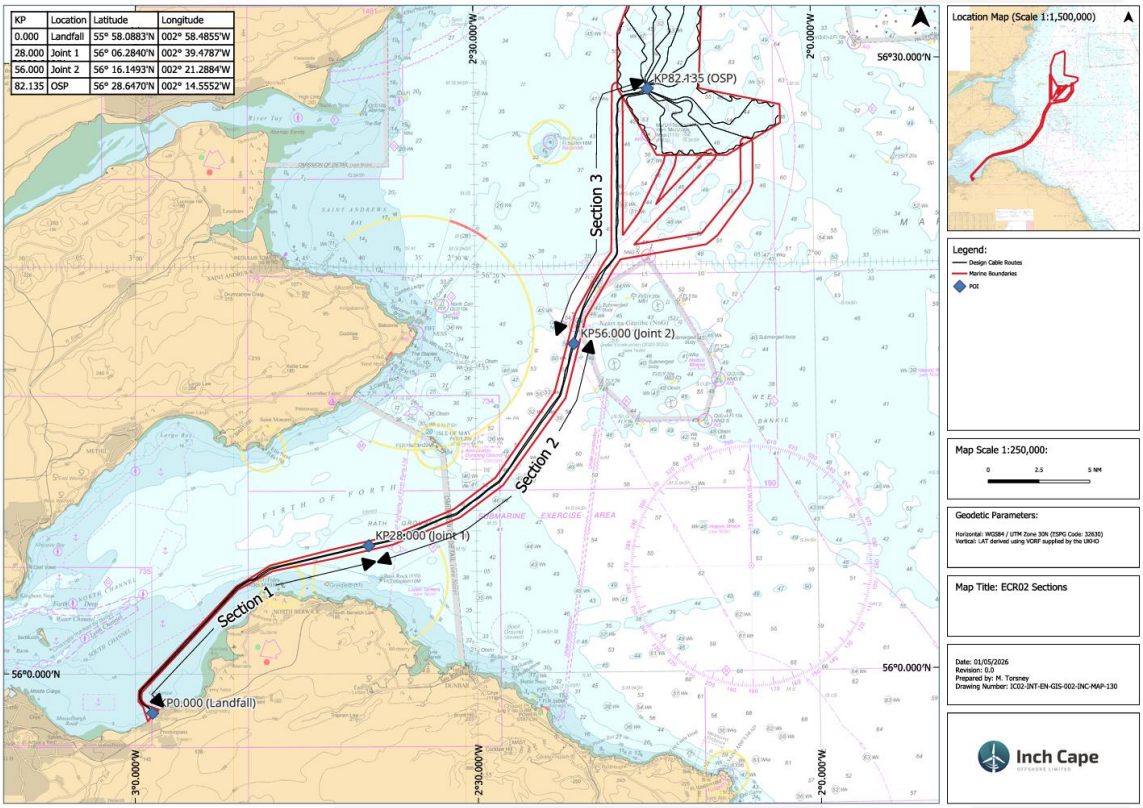
6. Export Cable - Joint Burial Operations

On behalf of Inch Cape Offshore Ltd, Enshore Ltd have completed export cable nearshore cable mattress installation. Export cable joint burial activities will continue this week.

The utility vessel Voe Vanguard shall continue export cable joint burial activities at the locations shown below.



Vessel: Voe Vanguard	Contact Details	
	Call sign:	**MBEN9**
	MMSI:	**232008636**
	Vessel Information	
	Length:	**33.2 m**
	Beam:	**14.5 m**
	Draft:	**2.6m**
	Vessel Contact:	**ICOL Marine Ops Lead – 07932 229828**

7. Wind Turbine Generator Load Out Activities

The Wind Turbine Generator installation vessel Wind Mover is currently jacked up within the wind farm site awaiting entry to the Port of Dundee for the first component load out. Wind Mover is expected to jack up in Dundee for load out towards the end of this week. WTG installation is expected to commence around the 16th of November.

Vessel: Wind Mover	Contact Details	
	Call sign:	**V7A6097**
	MMSI:	**538010478**
	Vessel Information	
	Length:	**153.1m**
	Beam:	**56.0m**
	Draft:	**8.2M**
	Vessel Contact:	**Inch Cape Marine Operations Lead – 07932 229828**

8. Crew Transfer Vessel Operations.

Inch Cape Offshore Wind Ltd. shall continue crew transfer vessel (CTV) operations. The crew transfer vessel MO12, MO14, NOS Completer and Windcat 27 shall support ongoing work scopes.

Vessel: MO12	**Contact Details**	
	Call sign:	**MTBI3**
	MMSI:	**232064723**
	Vessel Information	
	Length:	**26.0m**
	Beam:	**9.0m**

	Vessel Contact:	**Inch Cape Marine Operations Lead – 07932 229828**

Vessel: Windcat 27	**Contact Details**	
	Call sign:	**2ELD8**
	MMSI:	**235086068**
	Vessel Information	
	Length:	**18.0m**
	Beam:	**6.0m**
	Draft:	**1.2m**
	Vessel Contact:	**Inch Cape Marine Operations Lead – 07932 229828**

9. Guard Vessel Deployment

There shall be two guard vessels deployed within the Inch Cape array site and Export cable route. The guard vessels will monitor the export cable route and construction site broadcasting pertinent construction, safety and navigational information 6 hourly to interested vessel traffic. Guard vessel Evening Star will relive Julia M on Monday 2nd of November with Solstice relieving Bountiful on Tuesday 3rd.

Vessel: Guard Vessel Bountiful	Contact Details	
	Call sign:	**MJLF4**

11. Safety Zones

Following consideration by Scottish government ministers, it has been agreed that during construction and commissioning of the Inch Cape development rolling 500m safety zones will be established around the offshore sub-station platform, each wind turbine generator and/or their foundations whilst construction works are in progress. Up to Ten 500m safety zones may be active concurrently as indicated by the attendance of a construction vessel.

Furthermore, pre-commissioning 50m safety zones will be established around each structure (both WTGs and OSP) and/or their foundations which is either partially constructed or commissioned, up until the point of commissioning of the wind farm. Up to 73 of these safety zones may be active at any time, given that the development will comprise of one OSP and 72 WTG’s.

12. Website and social media

The website for Inch Cape Offshore Wind Farm can be found at **www.inchcapewind.com.** This contains all Inch Cape Weekly Notices of Operations and Notices to Mariners, together with a large amount of general information about the project.

For more about the project you can follow our social media platforms Linkedin and Instagram, links below.

Linkedin: **@Inch Cape Offshore Limited**

Instagram: **@inchcapeoffshore**

A central list of recipients is maintained by Inch Cape Marine Coordination, if you are not the appropriate recipient or do not wish to receive these notices, please contact Marine Coordination as per the details in section 1 of this notice.
